

KONICA MINOLTA

ramsdenpurchasing

... *the best of both worlds!*

- **Ramsden Purchasing** helps businesses save money on what they buy... Konica Minolta provides printing equipment that is excellent value and offers service without compromise... value for money products at well negotiated prices... the best of both worlds!
- With the current unprecedented escalation in costs, it is vital that businesses maintain control over their expenditure
- A recent survey conducted by the Gartner Group shows that on average **3%** of a company's annual turnover is spent on office consumables such as printing. Businesses are often unaware what their cost per print is, which can lead to wrong decisions being made when office equipment is purchased
- That is why I have secured best prices/service deals for my clients with Konica Minolta Business Solutions (UK) Ltd - the UK's largest direct sales and service team for printers and multi function products. This deal allows you to buy direct with the manufacturer rather than through a dealer or distribution channel
- Konica Minolta offer the experience, reliability and resources of a global brand, with a fast, convenient and local friendly service from their UK wide branch network
- Give Mick Ramsden a call on **07957 928862** or email **mr@ramsdenpurchasing.com** and we will reduce that 3% figure significantly
